

FUGRO GROUND GEOPHYSICS – ENVIRONMENT POLICY (POL 04)

GENERAL POLICY

Fugro Ground Geophysics commits itself to undertake all work activities with due regard for the environment.

We will continually strive to improve our performance to minimise disturbance to the environment in all activities and locations.

OBJECTIVES

In support of this policy, Fugro Ground Geophysics will:

- **Define** practical means, in association with world, country, and state or provincial regulations, for understanding and minimising the impact of our activities on the environment.
- **Maintain** environmental management safeguards as an integral part of business operations to ensure environmental impacts are responsibly managed.
- **Educate** all Fugro Ground Geophysics employees and contractors in environmental management protection, prior to and during all work activities.
- **Establish** company environmental goals and measurable targets for protection of the environment that are consistent with existing industry and regulatory standards.
- **Monitor** our progress and establish procedures that will improve the protection of the environment.
- **Respond** quickly to any emergency, which may significantly impact the environment.

RESPONSIBILITIES

The responsibility for developing, maintaining relevance and deployment of the Company's Occupational Safety, Health & Environment Policies rests with the Managing Director.

The responsibility for applying this Policy rests with all employees.

Kathlene Oliver
MANAGING DIRECTOR

Application: Fugro Ground Geophysics
Effective Date: 14 January 2010
